Winter preparation notebook

2026-09-14 · COMM-HIVER

A reminder for entrances, paths and shared spaces.

Before the first snow

Store lightweight furniture, mark fragile borders and clear routes to shared amenities. Record small repairs to bring to reception.

During the season

Check maintenance notices, respect temporary closures and choose a clear route. Check notices before heading out.

Feedback

In spring, the committee groups observations by area: lighting, drainage, signs and furniture. This notebook supports follow-up and does not replace technical expertise.
