Outdoor lighting

2026-04-09 · S-ECLAIRAGE

Downward-facing light supports routes without unnecessarily lighting neighbouring windows.

The principle

Downward-facing light supports routes without unnecessarily lighting neighbouring windows.

Practical guidance

Include the fixture sheet, colour temperature, direction and schedule. A timer or suitable sensor can limit extended lighting.

Planning a change

For an exterior change, gather the description, sketch, materials and schedule before requesting review. Wait for a written response before starting work.

Edition and follow-up

2026 edition. Check the update date and gather supporting information before raising a project.
