Growing in the Seasons garden

2026-09-15 · S-JARDIN

Growing beds, a small orchard and a pergola for sharing the harvest.

Through the season

Beds are allocated to participating households in spring. A herb bed remains shared. Water plants at their roots and return tools to the storage chest after use.

Making room for everyone

Check notices before visiting, respect maintenance closures and leave the space tidy. Contact reception with questions or to report damaged equipment.

Useful information

The practical notes bring together opening times, equipment and shared routines. The calendar lists neighbourly gatherings and workshops.
